## CUSTOM MARITIME AI

Few advancements have stirred excitement like Maritime AI tools, and we've got a game-changer: We at Navguide Solutions are proud to introduce a Maritime AI Chatbot that can be trained to understand a specific company's procedures and then talk back to you...

## WHAT'S NEW WITH NAVGUIDE?

January was an exciting Month. We were invited to present at the Intertanko SIRE 2.0 Webinar on the 24th of January, which was viewed worldwide. Following our collaboration with the Ocean Technology Group last year, the Navguide e-learning content will now be available to OTG clients through the Ocean Learning Platform. We entered into a strategic partnership with the ISF Maritime Services in Mumbai.

## 60-SECOND INSIGHTS

It's 2026.

Daniel, the Deck boy, asked, "Hi, how do I rig the Pilot ladder?" The App replied, "Sure, Daniel. Let me show you!"

## LET'S ENGAGE ON LINKEDIN

Trickle-down learning refers to the seniors on board mentoring the juniors. How often does it happen effectively? What percentage of senior deck or engine officers teach on-the-job skills to their juniors? Click here to reply back.

## GUIDE2INSPECTIONS APP

by Capt. Debashis Basu

**How do we objectively prove that mentorship is working?** It is a tough question. We usually end up judging the effectiveness of a training solution in terms of how many seafarers have undergone the training or by how many experts have worked behind it. While these may be indicative, they cannot serve as irrefutable proof that it has objectively improved vessel standards or crew competence. That is why we introduced a **mentorship tool coupled with an Inspection management system**.

It comes in the form of an app called **Guide2Inspections**. G2I is more than an app; it's a game-changer. It seamlessly integrates into daily operations and empowers seafarers with an intuitive guidance tool. For the organization, it provides a paperless, modern inspection management system that is customizable and helps them keep track of vessel readiness for SIRE, Rightship, or Port State inspections. With G2I, we are bringing the Classroom into the field.
